Mission: Building hope and promoting healing and learning through faith-based counseling and support services.

Vision Statement: All individuals and families are empowered to reach their full potential.

"I was desperate for counseling and am so grateful for your sliding scale program."

-family in counseling

With your assistance, we served 470 families in our counseling program—Many of whom would otherwise not have been able to afford the mental health services so "desperately" needed.

Last year, you helped 107 students receive over 1,500 hours of tutoring in reading, math, science, history, and English. You also provided their parents with the tools to help their children succeed through various workshops.
