Mission: Building hope and promoting healing and learning through faith-based counseling and support services.

Vision Statement: All individuals and families are empowered to reach their full potential.

"I was desperate for counseling and am so grateful for your sliding scale program."

-family in counseling

With your assistance, we served over 500 families in our counseling program and support groups, many of whom would otherwise not have been able to afford the mental health services so "desperately" needed.

You also helped more than 100 students receive over 1,700 hours of tutoring in reading, math, science, history, and English. In addition, you provided their parents with the tools to help their children succeed through various workshops.

Thank YOU for Attending the 2016 Golf Classic

Your support is helping us to Save Families, Save Lives
