• **Parenting & Relationship Education:** Community educators lead dozens of workshops/seminars to help parents and couples foster stronger, healthier families.

• **Tutoring/Mentoring:** Volunteers and certified teachers provide more than 2,200 hours of one-on-one tutoring and mentoring to children (grades K-12) with significant academic struggles.

 "We have this hope as an anchor for the soul, firm and secure."

Thank you for helping us bring hope and healing to your neighbors:

"My son is doing much better and is really responding to his sessions with his counselor. I literally had to pick him up and carry him in for the first meeting and now he actually looks forward to coming."

"I had a complicated story to tell and my counselor realized that immediately. It took a while and it was exhausting, but she listened and listened and helped me through every second of my sadness."

"I'm very grateful for the tutoring program at Anchorpoint. My daughter's grades have improved, her self-esteem has gone up, and her attitude about going to school is better. I don't want to think of our school life for our child if I would not have found Anchorpoint tutoring."

"I was going through a very difficult and confusing time, and would not have been able to afford to go to a counselor for help if it wasn't for Anchorpoint. There are many people who are in this same position. This service is invaluable."
